Sections and team allocations

As usual the team allocation has been a difficult job which we have done to the best of our ability with the information at hand and in consultation with provinces and SAM.

We have divided teams up into as many sections as we could, according to order of strength so that competition can take place on various levels as evenly as possible.

There are:

17 sections for Mixed Doubles,

8 sections for Ladies Doubles

16 sections for Men's Doubles

Each section has 6 - 7 teams

IMPORTANT INFO

Protective Eyewear Reminder

Protective eyewear is mandatory.
You will not be allowed on court without appropriate protective eyewear.
